**Architects**  
for  
**PLAN** sustainable  
outcomes

**Architects**  
**STRENGTHEN**  
society

**AIA**  
Pennsylvania

**needs  
your  
support**

**updated  
building  
codes**

**mandatory  
continuing  
education**

**high  
performance  
building**

**AEC  
business**

**K-12  
school  
construction  
reform**

**student loan  
forgiveness**

**Support high  
performance building**  
through energy and

environmental standards  
to optimize the  
performance of buildings  
and save taxpayers \$\$\$ on  
the life cycle costs of a  
building.

Pennsylvania is 1 of 5  
states that does not  
require MCE for architects

Architects are one of the only licensed professionals without a MCE requirement in Pennsylvania. **Support MCE for the health, safety and welfare of the commonwealth.**

Support us in fixing the RAC process in order to **update the UCC.**

**Oppose any professional services taxes.** Architects and AEC business owners cannot afford the consequences!

Architects are the key profession to lead the K12 construction funding process. **Oppose the use**

**of prototypical school  
plans** that will cost  
districts more money in  
the long run.

**Reinforce communities**  
and take some of the  
weight of student loan  
debt off architecture  
students' shoulders.
